

Everyone Belongs in an Inclusive School

Every classroom has a mix of learners, each with unique needs, strengths, and stories. Inclusive education ensures that every child, regardless of their ability or background, has equal access to learning and growth opportunities.

Let's explore how Schools can adopt inclusive practices to support diverse learners and create environments where all students feel valued, understood, and empowered to succeed.

Struggling to meet the varied learning needs in your classroom?

Differentiate instruction:

Use flexible grouping, choice boards, and tiered tasks to cater to different ability levels and learning styles.

Use visuals and hands-on tools:

Incorporate charts, pictures, realia, and manipulatives to support comprehension for all learners, especially ELLs and those with learning difficulties.

Offer multiple means of expression:

Let students show understanding through drawings, presentations, roleplay, or writing—choose what suits them best.

Provide peer support:

Use buddy systems or mixed-ability pairings to encourage collaboration and build confidence.

Want to build inclusive classrooms?
